

Photo Editing

Photo editing can be beneficial for professional or personal use!

Professionally, you do not want images representing your brand that are flawed. Viewers are drawn into you brand's faces, make sure that face is flawless!

For personal use, get your body or face retouched without plastic surgery.

Get your scenery changed without a plane ticket!

Photographers can also benefit from photo enhancement, as workloads do get too heavy to edit all pictures alone.

Artish offers background change, removing or adding objects or people and body enhancements/retouching.

Change Background

You have a background - \$15

I find a background - \$25

I design a background - \$45

Remove objects/people

1 object/person - \$15-\$30

1-2 objects - \$25-50

2-3 objects - \$40-\$60

*** Price varies depending on the complexity of the background***

If background is too busy to edit object out, I may deny your request
